

# S.O.A.P.

The best investment you can make with the most profitable returns is the time you take each day to be alone and communicate with God. This time will not only give you a godly outlook on each day but on your entire life, including the people and circumstances around you.

You must work at having a consistent time alone with God each day. It will not just happen. You must set the priority and let everything else revolve around that time with God. Decide today to build this habit into your life and protect it. In your time alone with God lies the secret to your daily walk and relationship with Him.
